

**FAQs - Request for Proposal (RFP) PJ91REMU112020 Research on Young People,
Cultural Relations and Climate Action South Asia**

1. What do you mean by the digital survey? Is it Computer Assisted Personal Interviews (CAPI) based survey or a Telephonic based survey?

Ans: Can be either and can be a mix of the two as well. Primarily we are looking for computer-based surveys (on account of the pandemic) but in cases where access to digital is difficult, organization may need to conduct telephonic surveys. Surveys can be paper based too but orgs will need to ensure all data is handed over in an agreed upon format, ready for analysis.

2. Can we select a sample according to the climatic division of Pakistan i.e. Highland Climate, Lowland Climate, Coastal Climate, and Arid Climate?

Ans: This is at the organization's discretion. So long as whatever you select, you are able to make a case for as well. However please note, age group for sample is 18 – 25 for the surveys and 26-35 for the FGDs and KIIs. KIIs can include key stakeholders like govt reps etc. who may be outside the age bracket.

3. What is the minimum or maximum sample size required for this survey?

Ans: We are looking for a min of 400.

4. How many minimum or maximum FGD/KII required for this survey?

Ans: Min 15 KIIs and 5 FGDs with 7-8 participants each.

5. What is the budget limitation?

Ans: We cannot disclose the budget.
