To which Priority Thematic Area(s) does the proposal respond?	Identify Priority Thematic Area
--	---------------------------------

I. EXECUTIVE SUMMARY

The Executive Summary (limited to one page) provides an overview of the proposed research project. It should clearly identify the Priority Thematic Area, and justify how the proposed project innovatively addresses the thematic priority area. The broad research objective should be briefly described, as well as the activities to be undertaken to achieve the project goals.

In addition, how the collaboration will be developed outside the university sector and the roles of partners — academic and sectoral¹— that will contribute to the success of the proposed project should be identified.

¹ Sectoral stakeholders can include charities, not-for-profit organizations, development agencies, communities – private enterprise (including, but not limited to, large multinationals and regional or local SMEs), relevant Ministries, government agencies, public authorities, chambers of commerce, trade groups, policymakers and other appropriate stakeholders.

II. PROJECT DESCRIPTION

In this Section (maximum four pages, including figures), describe in some detail the research plan for the proposed project.

Research Challenge and Anticipated Impact: The Project Description should clearly identify the research challenge associated with the priority thematic areas, how the proposed project contributes to research advance and commercialization and the anticipated socio-economic impact of the project.

Methodology: The research projects to be undertaken should clearly identify, the approach, and anticipated outcomes.

Partnerships: ICRG projects are collaborative in nature. We will encourage the applicants to develop multilateral partnerships and these partners can be from any country. Does the collaboration include researcher from third country? If yes, please describe role of the researcher and financial contribution to the project. Comment on how the academic and sectoral collaboration (both national and international) will be sustained and contribute to the overall project goals.

III. RESEARCHER COLLABORATION TABLE

In this Table, academic and sectoral collaborators, who will participate in the proposed project. The anticipated contribution should be discussed in the Project Description. All collaborators must have been contacted prior to submission of the Project Outline.

IV. LIST OF REFERENCES

References should be reported in a standard form, and include: the names of all authors; the article and journal title; book title; volume and page numbers; and year of publication. If available, a Digital Object Identifier (DOI) may be provided.

V. CURRICULUM VITAE

Curriculum Vitae of the Principal Investigators and key collaborators from each country should be submitted as part of the Project Outline. The CVs should be of a standard form (maximum two pages) and include the following information:

- Full name
- Position/Title
- Institution
- Professional Training/Education
- Chronological List of Positions
- List of up to five publications related to the proposed project, in standard citation format
- List of up to five activities related to the proposed project. These activities may include: current or previous grants; teaching; collaborations; leading workshops/conferences; consulting; etc.
