2 Introduction and Background to the Project / Programme

2.1 The British Council supports peace and prosperity by building connections, understanding, and trust between people in the UK and countries worldwide.

We uniquely combine the UK's deep expertise in arts and culture, education, and the English language with our global presence in over 100 countries. Our work enables individuals to gain the skills, confidence, and connections to transform their lives and shape a better world.

We engage directly with individuals and institutions to support quality education, international qualifications, and inclusive development. In 2021–22 alone, we reached over 650 million people globally.

According to Pakistan's 7th Population Census (2023), approximately 9.64% of the national population lives with some form of disability, equivalent to nearly 23–24 million people.

The British Council has long supported disability inclusion within Pakistan's Technical and Vocational Education and Training (TVET) sector through:

- Research on mainstreaming persons with disabilities in TVET.
- Development of **Disability-Inclusive TVET Guidelines**.
- Advocacy and stakeholder engagement for inclusive policymaking.

Despite this progress, significant barriers remain. Chief among them is the lack of disability-disaggregated data, which hinders evidence-based policymaking and program design. The need for a comprehensive needs and baseline study has become increasingly urgent.

Challenges for PWDs in TVET

PWDs in Pakistan face multiple overlapping barriers in accessing and benefitting from TVET, including:

- **Inadequate infrastructure** (Ramps, Accessible toilets, Signage, etc.)
- **Low awareness** of existing policies or youth programs.
- **Non-enforcement of employment quotas** and lack of penalties.
- **Employer biases** and limited inclusive hiring practices.
- **Low educational attainment** among PWDs.
- **Limited vocational training opportunities**, particularly for women with disabilities.

A Need analysis study is therefore proposed to assess the current situation, identify gaps, and recommend strategies for a more inclusive TVET system.

Specific Objectives

1. Assess the current state of disability inclusion in TVET
2. Examine enabling factors and good practices across sectors that support or hinder inclusion.
3. Generate evidence-based recommendations for policy and programming uptake leading to inclusive and accessible TVET systems.

Scope of work

British Council is inviting applications from potential suppliers with relevant experience in conducting in-depth exploratory research studies on relevant themes identified in below set of research questions.

Key questions include:

- What is the key structural, institutional, social, geographical and attitudinal barriers that limit the participation of persons with disabilities (PWDs) in TVET across Pakistan?
- Which national and institutional policies, practices, and enforcement mechanisms support or limit the inclusion of PWDs in the TVET sector?

- To what extent are the existing TVET institutions are inclusive in terms of physical infrastructure, teaching methods, and job placement services including career guidance for PWDs?
- How do PWDs and trainers perceive the accessibility, inclusivity, and responsiveness of TVET programs?
- What are the key advocacy and awareness-raising needs among employers and TVET institutions to promote disability inclusion?

At the outset, the supplier should analyse the existing data to present the total number and demographic distribution of persons with disabilities (PWDs) in Pakistan, disaggregated by geography, gender, age and other relevant variables, using existing datasets and information sources.

However, owing to the specificity and unique ask of each research question area, we are providing a set of suggestive lines to make sure relevant methodological approach is applied for right area. The supplier may suggest an alternative or uniform way of going about.

- a participatory Systems and Solution Mapping (PSSM) approach, integrating qualitative and quantitative methods to capture both the lived experiences of persons with disabilities (PWDs) and perspectives of wider stakeholders in the TVET ecosystem.

- Undertake a participatory journey mapping with PWDs and trainers to identify barriers and enablers across enrolment, training, completion, and employment transitions,

- Conduct a policy/institutional analysis through desk reviews and key informant interviews to assess enabling frameworks and practices and accessibility and inclusion assessments of TVET institutions to evaluate infrastructure, teaching methods, assistive services, and job placement support.

the supplier is to mark how each of the question will be addressed by the supplier through sub parameters, specific methods, approaches.

At the end, the supplier is expected to draw problem trees for Identified challenges and plot opportunities into a form of Result Tree, linking root causes to potential interventions and desired outcomes. These are to be validated as well through a validation workshop (BC to hold) at the time of completion of data collection.

The supplier is expected to propose approach on how the findings will be triangulated through primary and secondary data.

Stage 2: If a bidder succeeds in passing Stages 1 of the evaluation, then it will have its Proposal evaluated in accordance with the evaluation methodology set out below.

13.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages proposal using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Social Value	10%
Relevant Experience and Team	20%

Commercial	40%

13.3 Scoring Model – Proposals will be subject to an initial review at the start of Stage 2 of the evaluation process. Any Proposals not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Proposals not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
--------	----------------

10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder's failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

13.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 3 (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation, further information on this approach may be available in Annex 3. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full Proposal at this point. The British Council may also reject any Proposal where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the procurement rules. A maximum offer score of 10 will be awarded to the Proposal offering the lowest “Overall Price”. Other Proposals will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

13.5 Moderation and application of weightings – The evaluation panel appointed for this Procurement Process will meet to agree and moderate scores for each award criteria. Final scores in terms of a

percentage of the overall Proposal score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

13.6 The Winning Proposal(s) - The winning Proposal shall be the Proposal scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information)] obtained by the Authority relating to any self-certification or other requirements referred to at any time in this Procurement Process.
