For: Meaningful Participation of Women in Leadership

Date: 6 September 2019

1 Overview of the British Council

1.1 The British Council is the UK's international organisation for cultural relations and educational opportunities. We create friendly knowledge and understanding between the people of the UK and other countries. We do this by making a positive contribution to the UK and the countries we work with – changing lives by creating opportunities, building connections and engendering trust.

1.2 We work with over 100 countries across the world in the fields of arts and culture, English language, education and civil society. Each year we reach over 20 million people face-to-face and more than 500 million people online, via broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body

1.3 The British Council employs over 10,500 staff worldwide. It has its headquarters in the UK, with offices in London, Manchester, Belfast, Cardiff and Edinburgh. Further information can be viewed at www.britishcouncil.org.

2 Introduction and Background to the Project / Programme

2.1 Research, Evaluation, Monitoring Unit (REMU) at British Council Pakistan was created four years ago to elevate the British Council as a thought leader and to add depth, evidence, and thus credibility to the programme activities of its Strategic Business Units. REMU has published many successful research reports in line with the global trend of individual empowerment, including; 'Pakistan's Creative Industries', 'The Skill Disconnect in Sindh', 'The University Research System in Pakistan' and 'Mainstreaming Disability in Pakistan'.

Further information can be found at www.britishcouncil.org and reports at <https://www.britishcouncil.pk/remu-knowledge-hub>

This project aims to investigate the social and economic implications of *meaningful* participation of women in leadership roles in various sectors across Pakistan. In addition to providing insight into why meaningful female leadership as opposed to perfunctory or "tokenistic" leadership is critical to the social development and economic growth, especially for emerging economies like Pakistan, this research will also shed light on the different approaches that can assist in fostering stronger female leadership across the board and throughout their careers.

2.2 The purpose and scope of this RFP and supporting documents is to explain in further detail the requirements of the British Council and the procurement process for submitting a tender proposal.

7 Specification

7.1 Background

Making up about 48% of the 207.8 million population, women and girls make up a sizeable part of the population in Pakistan. In spite of evidence asserting women's role in producing stable, secure and open societies, women, especially in Pakistan, continue to remain socially, culturally and economically marginalised, with patterns of severe gender exclusion common across all provinces and sectors.

This trend carries across education and governance as well as in other sectors such as media, law and justice, sports, business and others too, ultimately forming the basis of lack of women in leadership positions across all sectors. Where women do secure leadership positions, more often than not, a deeply rooted patriarchal culture results in diminished authority.

While opportunities and legislations exist on paper, their practical implementation is missing. There is therefore an urgent need to highlight the critical role of meaningful female leadership in socioeconomic strengthening and identifying innovative and collaborative approaches to creating ecosystems that can foster female leadership.

7.2 Project description

The study will investigate why meaningful participation of women in leadership is critical to socioeconomic progress of a country, especially in the Pakistani context. It will also explore and identify, what fosters stronger female leadership across the board and throughout professional journeys, as well as innovative and collaborative approaches to creating ecosystems that can foster and enhance female leadership.

The research will explore:

Why is meaningful participation of women in leadership critical to socioeconomic progress of a nation?
What can be done to foster stronger female leadership across the board and throughout professional careers?

1. Literature review

Output 1a: Definition of meaningful participation in leadership

Output 1b: The socioeconomic implications of lacking meaningful participation of women in leadership

Output 1c: List of observable characteristics of meaningful participation of women in leadership i.e. what makes an effective female leader, what does effective female leadership look like?

2. Survey of population in sectors such as business and entrepreneurship, arts and media, politics and governance, law and justice, civil society, sports, development sector to understand beliefs and barriers.

What does the wider population understand the concept to mean and the range of approaches/activities that can nurture meaningful participation of women in leadership.

Output 2a: aggregated prototypical definition of meaningful participation from the perspective of men and women.

To what extent do the beliefs vary? Is it desirable, practical, feasible?

Output 2b: barriers that hinder meaningful participation of women in leadership.

Output 3: how can strong (and meaningful) leadership in women be cultivated and nurtured, from early stages on a wider community/societal level

We are looking for proposals with well thought out research design and plan with rigorous methodology, covering the depth and the breadth of the research area. It is expected that two or more academic papers will be extracted from the report.

13.4 The British Council may at any time request further information from potential suppliers to verify or clarify any aspects of their tender response or other information they may have provided. Should you not provide supplementary information or clarifications to the British Council by any deadline notified to you, your tender response may be rejected in full and you may be disqualified from this Procurement Process.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification

criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Knowledge and experience/Relevant work	30%
Methodology and Approach	20%
Timetable and staffing	10%
Costing and value for money	40%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidder's failure to provide all information at the level of detail requested.

5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder's failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the

British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
